## RECIPE

### Chocolate Chip Pumpkin Loaf (Vegan)

Recipe courtesy of Riverside Family Farm

#### Ingredients

- 1 and 3/4 cups (219g) all-purpose flour
- 1 teaspoon baking soda
- 1 teaspoon pumpkin pie spice
- 1 teaspoon ground cinnamon
- 3/4 teaspoon salt
- 2 flax 'eggs' (mix 2 tbsp of ground flaxseeds mixed with 6 tbsp water, set aside until gelatinous)
- 1/2 cup (100g) granulated cane sugar
- 3/4 cup (150g) coconut sugar (or dark brown sugar)
- 1 and 1/2 cups (340g) pumpkin puree (canned or fresh)
- 1/2 cup (120ml) melted coconut oil or avocado oil
- 1/4 cup (60ml) dairy free milk of choice or orange juice
- 2/3 cup (120g) dairy free or semi-sweet chocolate chips (can omit and substitute nuts)

#### Instructions

Preheat the oven to 350°F (177°C) degrees. Lowering the oven rack prevents the top of your bread from browning too much too soon. Spray a 9x5 inch loaf pan with non-stick spray. Set aside.

In a large bowl, whisk the dry ingredients: flour, baking soda, cinnamon, pumpkin pie spice and salt together until combined.

In a separate medium bowl, whisk the wet ingredients: flax egg, granulated sugar, and coconut sugar together until combined. Whisk in the pumpkin, oil, and milk/ or orange juice. Pour these wet ingredients into the dry ingredients and gently mix together using a rubber spatula or a wooden spoon. There may be a few lumps, do not overmix. Gently fold in the chocolate chips.

Pour the batter into the prepared loaf pan. Bake for 60-65 minutes, you can loosely cover the bread with aluminum foil halfway through to prevent the top from getting too brown. The bread is done when a toothpick inserted in the center comes out clean with only a few small moist crumbs. This may be before or after 60-65 minutes depending on your oven, so begin checking every 5 minutes at the 55 minute mark or so.

Allow the bread to cool completely in the pan on a wire rack before removing and slicing.

Cover and store leftover bread at room temperature for up to 3-4 days or in the refrigerator for up to about 10 days.

Can be frozen and also makes great muffins, just reduce cooking time to roughly 20 min and check often until cooked. (Makes roughly 12-18 muffins)

*\*pecans/ or walnuts make a nice addition*

## RECIPE

### Crispy Oven Baked Chicken Wing Recipe

Recipe courtesy of Hidden Roots Farms

This is my go to wing recipe. It uses baking powder which is different but it works trust me! The powder draws moisture from the wings and makes them even crisper (you can substitute corn starch if you don't have baking powder).

For coating, mix together:

- 1/2 cup of baking powder
- 1 tsp salt and pepper each
- 2 tsp garlic powder
- 2 tsp cayenne pepper

Dry wings on towel and toss in coating mix. Shake off any excess coating. Coats about 1.5lbs of wings.

Bake in preheated oven at 400° for 45-50 minutes, flipping halfway through (put parchment paper on your cookie sheet for easy clean up). When done, toss the wings in your favourite sauce or eat as it!
